

I'm a User Acceptance Tester for SC Dept of Health and Human Services. I have been with the department almost 4 years now. I have 20+ years of experience in Marketing and Public Relations. I also have 8 years of experience as a Samsung Experience Consulting Expert. I am a member at Gateway Baptist Church, Green Charter is actually located at our previous home church site. I am very tech savvy. I enjoy spending time with my family. We roller skate, hike, camp, bike, swim, bowl, take long walks and enjoy arcade games as well as board games. We listen to motivational speeches, Christian sermons and the Bible on our way to school daily. I have volunteered with PTO and Student Improvement Council at Harbison West Elementary and H.E. Corley Elementary. This is our 1st year at Green Charter School and we're looking forward to making this our new home.
