

Hello everyone, I am excited for the opportunity to join the Green Charter School Board and look forward to working with you all. I began my Amazon career five years ago at our Columbia, SC location before traveling to the Chicago area to launch a new Amazon AIR Gateway facility. My current role is an Amazon Workplace Health and Safety Operations Excellence Manager, where I am responsible for leading global projects, developing big solutions and implementing safety best practices across facilities around the world.

Prior to Amazon, I spent ten year at John Deere in Business Development and Operations, helping launch a new production line for Deere's most successful large tractor. I obtained my MBA from the University of Chicago and am a proud alumnus of The University of South Carolina...go Gamecocks!

A little about myself, I love to travel, learn about new cultures and try delicious ethnic food. I am also a huge Disney fan and have visited Disney World and cruised on Disney Lines seven times...my best memories are with my wife and girls. I have traveled the world as an Air Force brat and subsequent military tours while serving in the U.S. Army 82nd Airborne Division and 75th Ranger Regiment. I have been married for 25 years and have two awesome girls, Mackenzie and Madison, ages 14 and 12.

I look forward to being a part of the Green Charter School Board and am excited to help raise the bar for academic excellence. To get the best outcome, we must give our best effort. I am committed to being respectful and transparent, and never forgetting that this role is not about pushing my opinion; rather, it is about what is the data-driven best course to create an exceptional scholastic experience for our children.
